

How to order with McMaster-Carr electronic basket

Starting on 25 July, 2024

Pourquoi?

Un panier électronique permet d'accéder au site de commandes en ligne des fournisseurs. Autrement dit, vous avez accès en temps réels aux tarifs préférentiels de l'Université Laval. Une fois dans le site de commande, vous effectuez un panier d'achats et vous le soumettez à la personne responsable de l'unité.

Comment?

Pour procéder à l'ouverture d'un Panier électronique et y ajouter des produits, connectez-vous à PeopleSoft Finances avec votre IDUL et votre NIP : www.finances92.ulaval.ca Tous les employés y ont accès. Aucun accès supplémentaire n'est requis dans PeopleSoft Finances.

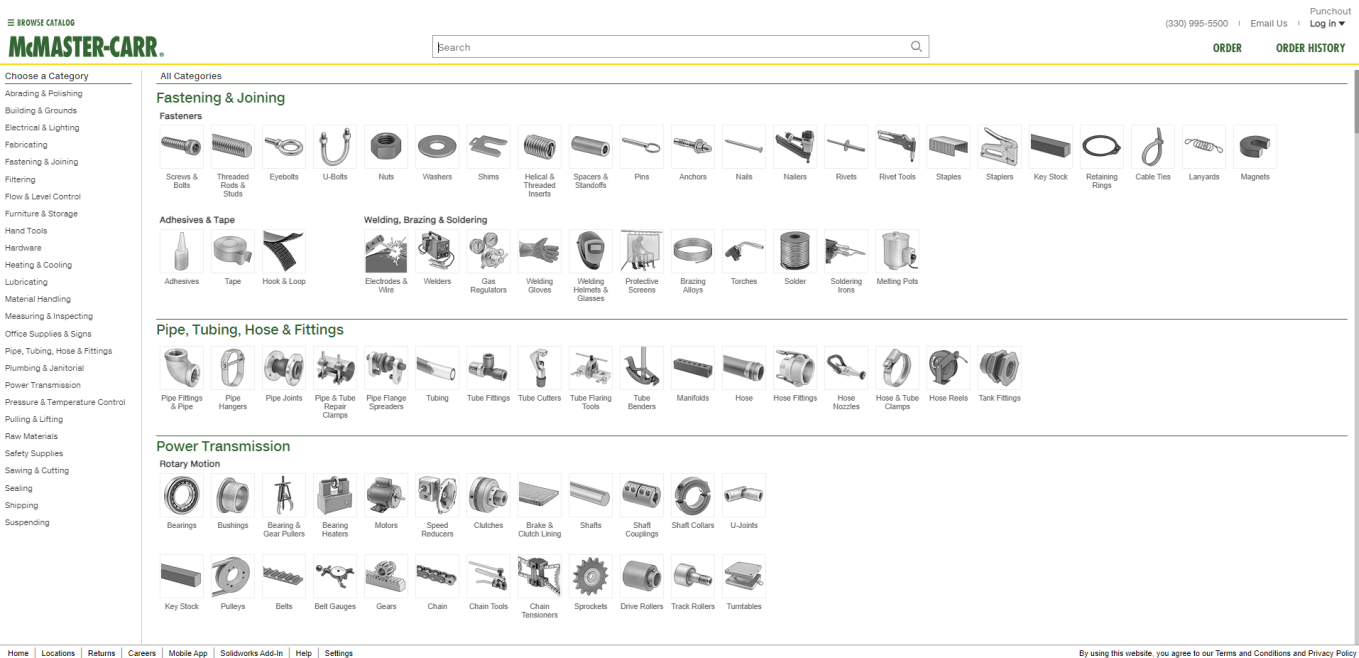

Compléter un panier McMaster-Carr

- Sélectionnez le panier dans la liste

The screenshot shows the top navigation bar of the McMaster-Carr website with the following links: Signets, Menu principal, Gestion approvisionnements, Demandes achat, and Panier électronique. Below the navigation bar, a welcome message reads: "Bienvenue dans la page du «Panier électronique»". A note states: "Cliquez sur l'icône du fournisseur pour accéder au catalogue électronique désiré." Below this, a link "Pour obtenir de l'aide" is accompanied by a question mark icon. The main content area displays a grid of supplier logos, including Millipore Sigma, Qiagen, Life Technologies, Cedarlane, VWR, Staples, McMaster-Carr, Abcam, BioRad, New England Biolabs, FroggaBio, and Linde. The DigiKey logo is also visible at the bottom.

Ajouter des articles

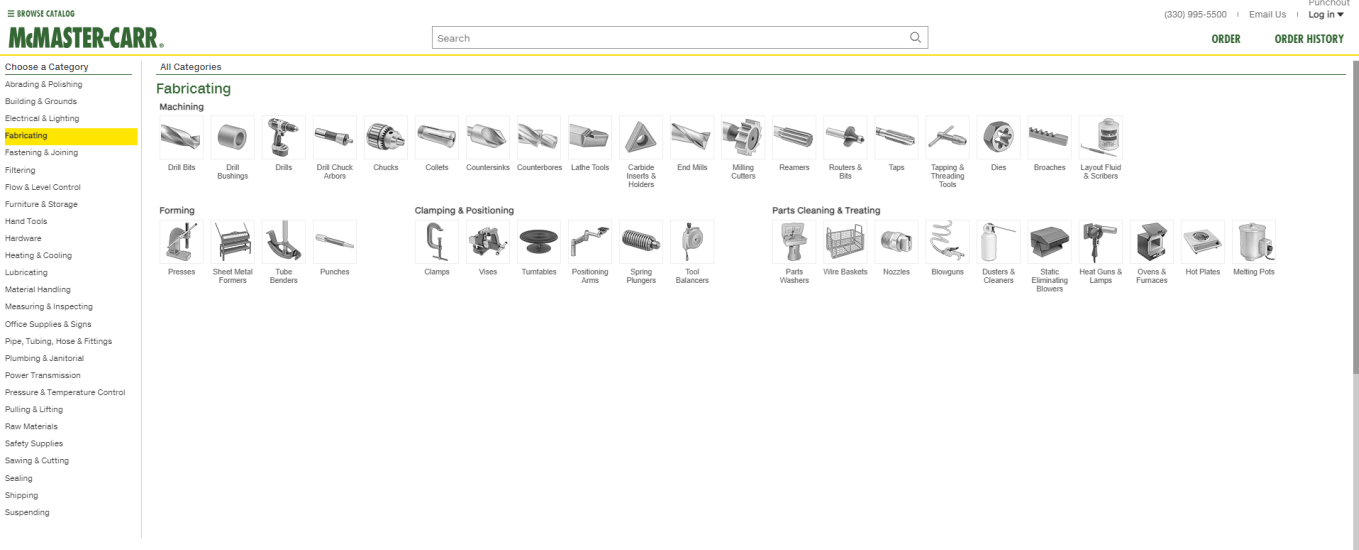

Voici l'écran du site de **McMaster-Carr** sur lequel vous arriverez.

Il y a différentes manières d'ajouter des articles dans le panier :

Ajout en utilisant le menu

- Dans le menu de gauche, ciblez la catégorie **Choose a Category** et choisissez le produit désiré

Drill Bits

Create holes in metal, wood, plastic, concrete, and more

8825 products

Hollow-Core Cutters

Use in magnetic-base drills to form burr-free holes by only cutting the outside edge of a hole

196 products

Drill Stops

Limit how far bits can drill to create identical hole depths every time

145 products

Drill Bit Shank Adapters

Convert your power tool to fit different drill bit sizes or shank types

21 products

Drill Rig Thread Adapters

Change thread sizes on bits to use them in drill rigs

1 product

Chip Catchers

Capture chips and dust when drilling holes

4 products

Plug Cutters

Form wood plugs to conceal fastener heads in counterbored holes

8 products

Tap and Drill Bit Kits

Drill holes and cut internal threads in a variety of sizes

16 products

Tap, Die, and Drill Bit Kits

Cut and repair internal and external threads and drill holes in many different sizes

1 product

Taps

Cut internal threads using a tap wrench or machine tool

126 products

Countersinks

Cut a cone-shaped opening in a hole to install flat head screws and rivets flush with the surface

549 products

Counterbores

Enlarge the top of a hole to install socket head screws and wood plugs flush with the surface

54 products

Hole Saws

Connect to a drill or drill press to make circular cuts

521 products

Hole Saw Arbors

Secure a hole saw to a drill or drill press

7 products

Hole Saw Slug Removers

Push or pull material out of hole saws to prevent binding

1 product

End Mills

Cut and shape material to create precise slots, grooves, and profiles

90 products

Annular Cutter Arbor Adapters

Modify hollow-core cutters to fit larger arbors on drill presses and milling machines

3 products

Hole Saw Pilots

Center your hole saw when enlarging existing holes

1 product

Electrical Discharge Machining Electrodes

Create pilot holes and other small holes to run EDM wire through; use with hole-popping EDM machines

8 products

Electrical Discharge Machining Electrode Guides

Hold EDM electrodes in place as they penetrate workpieces

2 products

Fastening and Joining

About Wire Cloth and Plastic Mesh
Easy-to-Form Galvanized Steel Wire Cloth
The welded joints keep opening sizes uniform and prevent fraying as you bend this wire cloth. Use it to construct protective screens for use outdoors.
This wire cloth is made from galvanized steel for better corrosion resistance than plain steel.
For technical drawings and 3-D models, click on a part number.
